

CODE OF CONDUCT

Community Champion (voluntary role) – Boston

The purpose of a Community Champion is to help ensure that residents across Boston hear correct and consistent information about Covid-19, the vaccination/booster campaign and wider health messages. We recognise there is often debate and sometimes disagreement, but our role as Community Champions is to tell people what the rules and the facts are, to enable people to make informed decision. This is a voluntary role.

Therefore, by signing up as a Community Champion, you are agreeing to the code of conduct, which requires that :

- Any information or advice you circulate comes from the Council, NHS, Public Health Engage or the Government
- You do not make political statements in respect of Covid19 arrangements
- You do not debate the merits of the guidance or criticise the government, council or partners – if somebody is incorrect, simply signpost to the correct information. This is to ensure the key messages are not undermined.
- You do not apply your own interpretations of guidelines – if in doubt, ask for clarification
- All personal information encountered in your role as Community Champion will be kept confidential
- You will attend 6 weekly virtual Community Champions briefing sessions
